Auburn Ridge

Perfectly soft and luxurious.

AUBURN RIDGE | COAL

Colours shown may vary slightly from the actual product and should be used as a guide only.

Auburn Ridge

Auburn Ridge brings depth and dimension to New Zealand homes through its distinctive braid-like loop pile design. Made from 100% New Zealand wool and manufactured in Australia, this textured carpet embraces the natural benefits of wool, offering warmth, comfort and character. Its tufted loop construction creates a subtle linear effect that complements contemporary and classic interiors alike.

Sharing a gentle, muted colour palette with Boundary Rise and Homestead Lane, Auburn Ridge celebrates the authentic texture and natural variations that gives New Zealand wool its unique charm. Available in six neutral tones, each range offers a unique loop pile texture that works harmoniously alongside timber, stone and other natural materials.
