Woodura Planks 3.0

EUROPEAN HARDENED TIMBER | 2024/2025 COLLECTION

SWEDISH SOMMARSTUGA

Swedes like to spend their free time recharging in nature, preferably in a traditional summer cottage. With a desire for solitude, people escape to the forest, the lush countryside or the seaside.

FINNISH SAUNA Saunas are an integral part of Finland's culture. Here, people relieve tension and stress, embracing inner peace. The heat raises the body temperature – essential during colder months – and relaxes the mind.

NORWEGIAN HYTTE

The countryside in Norway is dotted with cabins and cottages high up in the mountains and by the coastline. This is where Norwegians traditionally spend time with family and friends, relaxing and enjoying life outdoors.

Born in *Scandinavia*.

Scandinavians are known for their love of nature and their carefree approach to life. Our mood is categorised by a sense of tranquillity, prioritising family and friends, and a healthy work-life balance. We value simplicity, equality and due to our strong connection to nature: preserving the environment. Mixed with curiosity, creativity and a passion for innovation, our long-lasting flooring products were born.

DANISH HYGGE Hygge means enjoying the good things in life, relaxing by yourself or celebrating the small joys of life with people you care about. It's an opportunity to unwind and take things slow.

Woodura Planks ^{3.0}

Built to last. Designed to impress.

Woodura Planks 3.0 provide a gorgeous and durable foundation for any household. Strengthened by patented technologies, they thrive in lively settings, creating warm and inviting atmospheres. Their natural beauty and grain patterns bring an authentic and timeless feel to any interior. Exceptionally tough and resistant to dents and water, these floors are made from responsibly sourced FSC™certified European wood, ensuring a long lifespan. These floors have truly revolutionised home living.

**100%
REAL WOOD**

**3X STRONGER
IMPACT RESISTANCE**

**HIGHLY WATER
RESISTANT**

**SUSTAINABLE
MANUFACTURING**

Responsible flooring packed with world-class innovations.

Our exceptionally durable hardened wood floors are empowered by the patented Woodura™ technology, which creates a water and dent resistant surface and makes the panels three times stronger. Together with the leakproof 5G Dry™ floor locking system and the moisture-resistant Compositek wood core, these floors can last for generations. Produced with high-quality, responsibly sourced FSC-certified wood, all raw materials are used optimally, creating a more sustainable wood floor.

woodura™

1. Pro matt lacquer top coat
2. Natural wood covering
3. Wood-based powder layer
4. Välinge Compositek™ core
5. Wood-based powder layer
6. Wood backing layer

EUROPEAN HARDENED TIMBER

Lighter *tones* of hardened wood.

Wood floors in lighter tones offer a timeless and versatile aesthetic. By creating an open and airy ambience, these floors can make a room appear larger and more inviting. They also brighten a space by reflecting natural light, making them an adaptable choice that complements various design styles.

Diverse gradings and colours for multiple interiors.

Choose a Select grading for a clean look or the authentic Nature option for a little more character. Meanwhile, our pro matt lacquer surface treatment stands up to the toughest demands, making it ideal for both residential and commercial settings.

Select

Select is clean and harmonious, with few whole knots and color variations.

Blend

Blend mixes the clean and sophisticated Select with the character of Nature.

Nature

Nature brings the beauty of the outdoors inside, providing an authentic wooden look.

SMALL

LARGE, XL

Product formats (mm)

	Width x length	Thickness
XL	206 x 2200	11.3
Large	180 x 2000	9.2
Small	151 x 1170	9.2

*Colour selection varies by range.

Easiest installation on the market.

Assemble your floor planks effortlessly with a satisfying click. Our Woodura Planks 3.0 boast the patented 5G Dry® solution, developed by sister company Välinge Innovation, creators of the first mechanical floor locking system.

5G Dry – a leakproof solution

The leakproof 5G Dry floor locking system is the latest innovation in floor locking technology. In addition to providing a swift and hassle-free installation, watertight joints prevent water from seeping through the seams and damaging the subfloor.

This locking system has been developed to pass the NALFA and ISO Topical Moisture tests used to assess the behaviour of flooring installations exposed to water and spills. Our Woodura Planks 3.0 meet all the requirements of ISO 4760.

Installation area

Installation is suitable for most residential and commercial areas, except in bathrooms.

Area of application

European hardened timber products are suitable for most residential living areas, offices, hospitality, retail etc. The flooring is not suitable for installation in humid rooms (bathrooms, saunas etc.).

Lacquered – suitable for installation in most heavy commercial and residential applications, except bathrooms.

Cleaning

For the removal of dirt and grime, it is recommended to clean Bjelin's hardened wood with a pH- neutral hardwood surface spray and microfibre mop.

Underfloor heating

These floors are suitable for underfloor heating. The surface temperature of the floor must never exceed 27° C. See installation instructions. Ensure you follow the installation guidelines and recommendations.

Click!

5G – Click the panels into place without nails, glue or sealants.

TECHNOLOGIES

The 5G® locking system makes it easier than ever to click together a floor. Do it yourself or minimize the project timeline when hiring a professional. Can be installed as a **floating floor** or **glue down**.

Pioneering the future of flooring.

Bjelin develops, manufactures and sells a broad range of flooring products utilising ground-breaking technologies by sister company Välinge Innovation, the inventor of the click floor. Production takes place in our state-of-the-art factories in Sweden and Croatia, where we have access to top-quality, FSC-certified wood. With a commitment to innovation, we thrive on challenging the norm, looking for new ways to enhance the customer experience, and finding environmentally friendly ways to create flooring products.
