Boundary Rise

Boundary Rise is a textured wool carpet designed for everyday living, with a small, tightly constructed loop pile that offers a resilient and practical finish for busy New Zealand homes. Its subtle grid texture creates a neat, versatile look that complements a range of interior styles. Made from 100% New Zealand wool and manufactured in Australia, Boundary Rise combines natural warmth and comfort with the practicality needed for everyday life.

Available in six neutral tones, Boundary Rise celebrates the authentic texture and natural variations of New Zealand wool. Its gentle, muted colour palette is also shared by Auburn Ridge and Homestead Lane, offering a choice of loop pile textures that pair beautifully with timber, stone and other natural materials to create warm, inviting interiors.
