Leveraging our access to a state-of-the-art R&D department via Välinge Innovation, we've pioneered a cutting-edge approach to enhance wood's natural structure. Due to the ground-breaking Woodura® technology empowering our hardened wood floors, we can employ a sophisticated array of

nine precision-engineered brushes to seamlessly integrate contrasting pigments into the surface, highlighting the natural grain of the oak. Woodura® makes our floors three times stronger than traditional engineered wood options, with enhanced resistance to water and dents. Paired with the superior

5G Dry® leakproof floor locking system, these floors ensure lasting durability, and boast a tough class 33 pro matt lacquer – our toughest to date. These powerhouse floors redefine the game in residential and commercial design, injecting a sleek, tech-savvy edge that screams innovation.
