

Product Name	Balsan Carpet with Econyl fibre, Bitumen backing and < 1400 g/m2 pile weight and approved EPD.
Document Type	Green Building Rating Compatibility Analysis
Document Code	ES-GSNZ-19-94b
Client	Belgotex New Zealand

The above-nominated Balsan carpet products with Econyl yarn are distributed by Belgotex New Zealand. Balsan carpets econyl fibre is manufactured in the Aquafil plant in Slovenia. The plant in Arthon, France, specialises in the manufacture of econyl broadloom carpet, while the plant in Neuvy-Saint-Sépulchre, France, specialises in the manufacture of econyl carpet tiles. Balsan offers a wide range of patterns, textures, and sizes of carpet tiles and broadloom. The nominated product(s) are manufactured in ISO14001 certified manufacturing plants, have been tested and certified to various low VOC schemes, and hold a published Environmental Product Declaration (EPD) which has been submitted on the basis of "worst case scenario" in terms of a pile weight of 1400 g/m2. Please refer to individual product datasheets to confirm that the product has a pile weight < 1400 g/m2, uses Econyl and includes a bitumen backing (in which case the product is covered within the scope of the EPD)

Manner in which the product may contribute towards points	Legend of Symbols in EnviroSpec
Products must meet specific criteria (e.g. Paint VOC emissions, carpets, etc)	✓
Products may help achieve points by their very nature, if they are specified and installed (e.g. bicycle racks)	●
Products may help achieve an outcome but they must be used in a specific manner (e.g. lighting control and zoning systems) OR The nominated product(s) can contribute towards the outcome but many other products or factor influence that same outcome (E.g. Potable Water Calculator)	○

Homestar (V2 and V3)	MAT-1	9 (all products combined)	This credit rewards the selection of eco-preferred and responsibly sourced materials. Floor coverings are one of thirteen possible construction types eligible for up to 1 merit each.	✔	0.75 merits (out of 1 merit available for floor coverings)	The nominated products hold a valid product specific EPD contributing to 0.75 merits.
	MAT-2	3 (all products combined)	This credit rewards the use of low VOC and low formaldehyde interior products and finishes. This product is eligible for 0.75 points out of 3.	✔	0.75 points (out of 0.75 points available for floor coverings)	The nominated products demonstrate compliance with low VOC emissions via either GUT or AgBB accreditation. These are nominated as suitable VOC standards within Environmental Choice NZ, which is an approved ecolabel.
Homestar V4	MAT-1	10	This credit rewards the use of eco-preferred and responsibly sourced materials. Flooring products are one of thirteen possible material categories eligible for 2 points each.	✔	1.5 points (out of 2 points available for floor coverings)	The nominated products hold a valid product specific EPD contributing to 1.5 points
	MAT-2	4	This credit rewards the use of low VOC and low formaldehyde interior products and finishes. Floor coverings are one of four material categories eligible for 1 point each.	✔	0.75 points (out of 1 point available for flooring)	The nominated products demonstrate compliance with low VOC emissions via either GUT or AgBB accreditation. These are nominated as suitable VOC standards within Environmental Choice NZ, which is an approved ecolabel.
WELL Building Standard® V1	Feature 04	Pass/Fail	<p>Any newly installed items from the below product groups must meet prescribed low emissions criteria and/or equivalencies.</p> <p>PART 1: Interior Paints and Coatings PART 2: Interior Adhesives and Sealants PART 3: Flooring PART 4: Insulation (excluding duct insulation) PART 5: Furniture and Furnishings</p> <p>For detailed compliance criteria and acceptable equivalencies please refer to WELL V1 Standard</p>	✔	Pass	The nominated products demonstrate compliance with low VOC emissions via either GUT or AgBB accreditation, which are nominated as acceptable equivalencies in WELL for this feature.
WELL Building Standard® V2	Feature X11	3	<p>PART 1: Furniture and Furnishings</p> <ul style="list-style-type: none"> • 1 point is available if >50% by cost of newly installed furniture and furnishings meet VOC emission thresholds. • 2 points are available if >90% by cost of newly installed furniture and furnishings meet VOC emission thresholds. <p>PART 2: Flooring and Insulation</p> <ul style="list-style-type: none"> • 1 point is available if all newly installed flooring and thermal and acoustic insulation (excluding duct insulation) inside the building meet the following VOC emission thresholds. <p>For detailed compliance criteria and acceptable equivalencies please refer to WELL V2 Standard</p>	✔	Pass	The nominated products demonstrate compliance with low VOC emissions via either GUT or AgBB accreditation, which are nominated as acceptable equivalencies in WELL for this feature.
